

Thanks for Attending Our DealerWin Seminar!

Thanks to our customers who attended our FREE DealerWin Customer webinar last week put on by Anne Salemo, President of Charter Software. These free webinars are put on regularly for current customers to support our goal for dealers to get the most out of our business management system.

"We really like the format of your webinars, and really appreciate that you take the time and effort to give us the free training. Thank you! March 18th Attendee

Last week's webinar was the second of a two part series on Helpful DealerWin functions. Survey responses indicate that ALL attendees walked away with something they could apply immediately in their day to day tasks and they rated the class 4.3 out of 5.

Customers should watch their email for an invitation to our May 27th FREE webinar which will compare DealerWin to ASPEN.
