

PARTS | SERVICE | CUSTOMERS | BAR CODES | UNITS | LISTS

Fully integrated software to manage your business from anywhere!

Checking customer, parts and units information from a smart phone or tablet saves the hassle of having to head back into the dealership or making a call to get the answers you need!

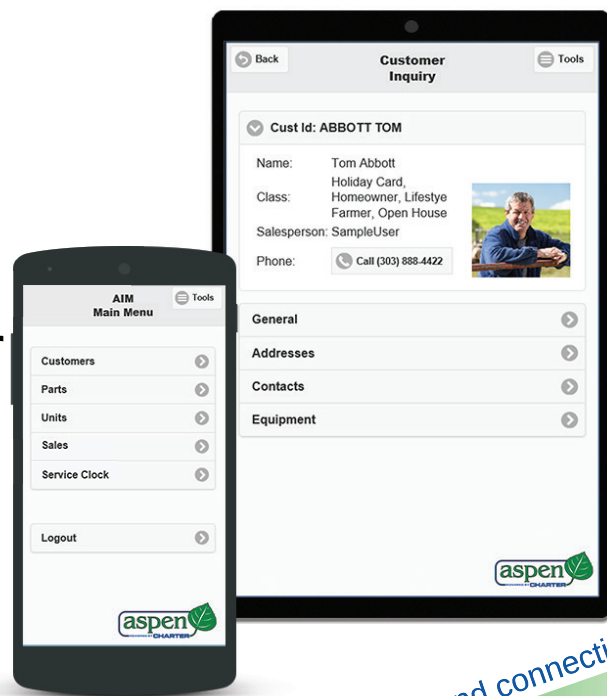

- Great for your mobile service techs, field sales or any employees without direct computer access
- Check on information after hours
- Quick and easy access to your ASPEN data from your mobile devices

➔ ALL info updates in real time

➔ Talk to text within A.I.M. allows you to easily log technician comments and/or communications on a customer

➔ From within a customer in A.I.M. you can touch the number to call, touch the address to map directions, or touch the envelope to email them

➔ A.I.M. Permissions match the user's ASPEN permissions

*requires cellular/broadband connection

Choose the A.I.M. license that suits your needs
