

Profit-Building Business Tools for Mahindra Dealers

INCREASE REVENUE DEALERSHIP-WIDE

We help Mahindra dealers conquer the daily challenges of managing a profitable equipment dealership. Marketing to existing customers, expanding customer reach, improving internal communications and quick access to critical business information are some of the many ways ASPEN can help Mahindra dealerships improve and grow their business!

A “real-time” business system, ASPEN provides up-to-the-minute detailed information on key performance statistics and financials available right from the system’s continually refreshed system dashboard.

A complete dealership management system for all facets of your business:

- Accounting, Customers, Inventory and Service Management
- Rental Fleet Management and Utilization Reporting
- Mobile Service Tracking
- Integrated CRM
- Customer Portal
- Mobile Applications/Remote Access
- Easy access to Mahindra parts pricing
- Parts Ordering Integration

Increase Service Revenue

Improve Inventory Control

Streamline Accounting

Grow Your Customer Base

ASPEN Parts Integration and Price Files for Mahindra

Submit parts orders directly to the Mahindra Parts System (Intelli Catalogue), eliminating the manual work of re-keying orders. Load the entire Mahindra price list into ASPEN and reduce pricing errors. Save time by not having to look up part numbers or key in descriptions to get pricing.
